Manufacturer: Chemspec

Germicidal Cleaner Concentrate Lemon Case of 4 Gallons UnSmoke MB1592909 221592909 Chemspec 118224
All Virus supplies: All factories including Steambrite implemented an Allocation Policy back in March 2020 on select products in order to meet the high demand. We committed to significant inventory quantities in order to fill our supply chain pipeline, and shared items which are on allocation cannot be returned or cancelled.

• Chemspec Microban QGC Mediclean Germicidal Cleaner Concentrate Lemon Case of 4 Gallons Prorestore UnSmoke MB1592909 221592909
•
• EPA-registered quaternary disinfectant

• Dilutes 1:64 (Dependent on the application)

• pH: 12.4

• Coverage contingent upon application and surface

• Kills Influenza A/Brazil (H1N1) Swine Flu

Chemspec Microban QGC also known as Microban Germicidal Cleaner Concentrate is the one-step disinfectant cleaner proven to combat a broad spectrum of bacteria. This product offers virucidal (including HIV-1, the AIDS virus and MRSA) and fungicidal protection as well as inhibits the growth of mold and mildew.

This multi-purpose quatenary disinfectant is so effective, it can be used in residences, commercial institutions, daycare centers, nurseries or restaurants. Microban QGC meets EPA standards for hospital disinfectants because it effectively kills fungi and viruses (including HIV-1, the AIDS virus and Herpes Simplex, Types I and II, Influenza A/Brazil H1N1 (commonly known as Swine Flu)) when used according to label directions. Additionally, QGC is a highly effective sanitizer for both porous and nonporous hard surfaces and leaves behind a delightful lemon, or mint scent.

Microban Germicidal Cleaner Concentrate (GCC) is outstanding for cleaning (after removing gross filth) disinfection, and deodorization and it has two distinct advantages over competitive products:

Performance - Microban GCC is a moderately alkaline, quat-based, dilutable concentrate formulated with a combination of alkaline builders, water softening agents and soil suspending agents plus fully biodegradable surfactants and a broad-spectrum disinfectant active. This combination gives Microban GCC excellent cleaning ability and optimal germ-killing capacity and even residual fungal control. Microban GCC is effective on all these levels to stop bacterial and fungal growth on surfaces after water damage. It is also registered as a laundry additive as an antimicrobial product. Many homeowners also appreciate its mild mint or lemon scent.

Steambrite Supply

Labeling - the Microban GCC label includes so many EPA-registered applications that we can't fit them on one label! There's actually an Extended Label to supplement the primary label. (You can find labels under "Documentation" on the Microban GCC web page.)

NOTE Orders might be filled with different color plastic bottles and or different labels but same formula inside!

Here's an overview of the top benefits to highlight with customers:

Economical - Dilution ranges from 8 ounces per gallon to ½ ounce per gallon. Depending on the application, therefore, one gallon of GCC will provide from 16 to as much as 256 gallons or almost 5 drums of ready-to-use solution!

Flexible - Microban GCC can be used for a range of applications, including typical floor cleaning and disinfection to barn disinfection, ultrasonic cleaning and disinfection and even for underwater diving equipment. It's well-suited for surfaces that have been affected by contaminated flood water.

Broad efficacy - Microban GCC is effective against some high profile germs including HIV-1, Norovirus, MRSA, Hepatitis B and C virus, and Influenza. Restorers can reassure their end-customers by pointing out that GCC can handle these nasty germs and viruses.

One-step convenience - In flood situations, it is a big advantage to have a product that cleans, deodorizes and disinfects in one step. Having a detergent in the disinfectant formulation is also an advantage over using bleach.

As Bill Weigand, Legend Brands Director of Restoration Chemicals, noted: "Microban Germicidal Cleaner Concentrate works well in dilution and has great cleaning abilities. It's particularly effective for sewage losses. Its broad spectrum of kill claims makes it an exceptional choice for normal water loss situations as well. It's so effective and versatile, it can even be used in medical facilities where bacteria and virus protection is critical. We know from our many customers that it's the product they reach for when sanitizing and disinfecting surfaces in water loss situations. Its applications cover so much - that's key to its appeal."

The customer advantage
Microban GCC builds trust with end-customers who need assurance that their homes and facilities are not just dried but protected against harmful bacteria that can affect occupants' health. Because Microban GCC is EPA registered, all its claims have been tested for broad efficacy. As with any EPA registered product, customers should use it per label directions.

Be sure to talk with your customers about their water loss jobs and recommend

Microban GCC as the optimal solution for cleaning, disinfecting, deodorizing, sanitizing and protecting surfaces.

And if they are doing more commercial jobs, point out that Microban GCC is an effective deodorizer for nursing homes, hospitals, hotels, schools and restaurants for sanitizing hard non-porous, non-food contact surfaces.

One additional use that your customers will value is that Microban GCC is great for cleaning and disinfecting non-porous personal protective equipment such as headgear, hard hats, respirators, full-face breathing apparatus, goggles, spectacles and hearing protectors used on Category 2 and 3 jobs. Microban GCC is truly the proven all-purpose product!

Chemspec Microban Germicidal Cleaner Concentrate (QGC)

Hospital grade disinfectant in an economical concentrated form.

This economical heavy duty cleaner is a disinfectant, fungicide, virucide, sanitizer, mildewstat and deodorizer all in one. Microban Germicidal Cleaner Concentrate is effective against a broad spectrum of bacteria, inhibits the growth of mold and mildew, and is virucidal (kills MRSA and HIV-1 and many other viruses).

In Canada, ask for Microban Disinfectant Cleaner Concentrate. See label for product claims and application instructions.

Germicidal Cleaner Concentrate also kills common household germs including Pseudomonas aeruginosa (Pseudomonas), Staphylococcus aureus and Streptococcus faecalis, Influenza A / Brazil, H1N1 flu virus, and Trichophyton mentagrophytes (the athlete's foot fungus), HIV-1, Hepatitis B and Hepatitis C.
