Spotless Water Systems Water De-ionization System DIC-20 [57107]

Manufacturer: Spotless Water Systems

Spotless Water Systems Water De-ionization System, [DIC-20] [57107]
Product Summary

This Spotless Water Systems Water De-ionization System provides 100% pure, mineral-free de-ionized water for washing and spot-free rinsing of cars, trucks, house windows, solar panels and much more. Provides approximately 300 gallons of mineral-free, de-ionized water based on your water input quality. It consists of two 20 inch de-ionization housings that feature replaceable (or refillable) cartridges that simply slide into the watertight tubes. The entire unit is mounted on a powder coated, rust resistant rolling cart that makes it convenient to move into position and store away when finished. Just wash, rinse and walk away — no hand drying is required.

What's Included

(1) Water de-ionization system
(2) 20" cartridges filled with de-ionizing resin
(1) 4ft. inlet hose
(1) 7-pattern spray nozzle
(1) Roll teflon tape
(1) Housing wrench
