

HEAT WHERE YOU NEED IT

DRAGON X2

Mobile Furnace

Now you can bring all the heat you need right to the job site. The trailer-mounted diesel-fired Dragon X2 Mobile Furnace provides up to **three days of continuous operation** without refueling. The unit's 60 gal. (max.) onboard tank eliminates the mess and hassle of external tanks and/or daily refueling required by other mobile heaters. The Dragon's three-outlet design, heat recirculation

capability and 100,000 BTU output delivers plenty of heat for water damage restoration, structural drying, construction, event shelters and other temporary heating applications. Plus, the indirect-fired design keeps combustion air separate from heated air, allowing the Dragon to heat air without adding any moisture, fumes or smoke. Get the heat you need where you need it with the Dragon X2.

Applications

- Water damage restoration
- New construction drying
- Heat jobsites for worker safety
- Unheated jobsites
- Temporary event shelters
- Workshops, storage rooms, and warehouses
- Greenhouses and polyurethane tunnels for agriculture
- Any situation calling for clean, dry temporary heat

Features

Dimensions, including trailer (W x H x D)	74 x 54 x 116 in. 1.9 x 1.4 x 3.0 m
Weight	1500 lbs. 680 kg
GVRW	2000 lbs. 907 kg
Tongue weight	200 lbs. 91 kg
Power	10 amps, 120 volt, 60 Hz
Net heat output	100,000 BTU/hr 29.3 kWh
Airflow rate	1500 CFM 2550 CMH
Heater cut off temperature	180°F 82°C
Fuel tank capacity	60 gal. 227 liter
Fuel type	No. 1 or no. 2 diesel or fuel oil. Kerosene may be added to fuel for cold weather operation.
Fuel consumption rate	.8 gal./hr 3.0 liter/hr

Keep it Outside

The Dragon X2 is completely self-contained on its own weatherproof DOT-approved trailer. This saves space on your vehicles for other equipment and provides safer, more secure operation than other heater types running inside occupied structures.
