Model Number: HPS6000HE

Winco Generators HPS6000HE Home Power Bi-Fuel Portable Generator 6000 Watt 120 Volt 2.0HP
Honda/OHV Engine

Manufacturer: Winco Generators

Home Power-HPS6000HE-Bi-Fuel-Portable Generator

HPS6000HE

Winco's HPS6000 is a high quality generator for the home owner who always wants to have power available. The dependable Honda GX340 is fitted with a dual carburetor which allows the engine to operate on gasoline, or natural gas. Switching between fuels is quick and simple. When this generator is combined with a manual transfer switch it powers essential circuits in your home during outages but remains mobile enough for a trip to the cabin.

This model was formerly a Tri fuel generator, however is no longer manufactured as such, for a TRI-FUEL REPLACEMENT, see the HPS9000VE.

WC Series comes standard with: Conserv-R automatic idle control saves on fuel and reduces noise. Switchless Full Power allows the full rated output from a single 120 volt or 240 volt outlet, or combination of both at the same time without switching voltage settings (applicable on the WC5000H and WC6000H/HE). Hour meter.

High quality generator ends, built to last

100% copper windings assure longer life expectancy.

>

Clean low harmonic power, won't burn up sensitive equipment.

High motor starting capabilities that are able to start larger motors.

Brushless generator ends (except for WC6000H/HE).

WC6000H/HE has a Rotating Field Brush design for superior motor starting.

Equipped with name brand industrial engines such as Honda and Briggs & Stratton Vanguard. Service and parts distributors available nationwide.

CARB & EPA certified premium engines.

Industrial grade mufflers.

Rubber isolation mounts on engine and generator.

Large fuel tanks for longer run times on 4kW and larger.
