Link Ramps 7850-A008 LB10 Series Side Step Mount Bifold Van Ramp 36x81 LB10-36-81

Manufacturer: Link Manufacturing Ramps

36x81 Bifold Ramp LB10-36-81

Up to 3 Week Build Time

All of our Ramp Systems provide protection for your employees and equipment by eliminating the danger of lifting in and out of vehicles. Our systems are proven to increase your job efficiency and reduce the cost of expensive equipment damage. Create for yourself a professional appearance with a Steam Brite Ramp System.

Fits in any full size van with hinged swing side doors. A 36" unit will not fit with a sliding side door van.

The LB10 Bi-fold Ramp is a side mounting system that mounts on vans with a side step. It folds up to store vertically in the "dead" space above the step. This ramp is easy to install and easy to use.

Capacity (lbs.) 1000

FEATURES & BENEFITS

- Mounts on vans with side step
- Stores in the "dead" space above the step
- Reduces dangerous lifting
- Reduce equipment damage
- Increase efficiency
- High strength aluminum extrusion
- Easy installation
- Takes seconds to position for use

RAMP SELECTION CHART

Use this chart to choose the appropriate ramp length for your vehicle.

>

RAMP CAPACITY RATINGS

There are many methods that are used to give a ramp its loading capacity rating. Do not be fooled by the numbers. Our ramps are rated using a footprint 6" wide by 16" long.

Pressure is applied to the center of the ramp with this footprint. We then apply a three times safety factor to arrive at the weight our ramps are capable of loading safely. This gives you a true capacity rating that has the safety of you and your employees at heart.

Ask your ramp supplier how they arrive at their capacity rating.
