Manufacturer: ProsChoice

Pros Choice C3014 Stain Blotter - 1 Gallon UPC 078345002775 Pro Poultice
Your answer for recurring spots caused by "wicking". Soaks up stains and spills during the drying process so the soil ends up in the absorbent, not the fibers. STAIN BLOTTER

Description:

Stain Blotter is a super absorbent that works to soak up spills and re-occurring spots.

Usage:

For reoccurring spots:

1. Rinse spot thoroughly using a dilute solution of Pro's Choice Last Step rinsing agent.
2. Leave the spot as dry as possible by making several vacuum only passes with wand following rinse.
3. Cover the spot with Stain Blotter by sprinkling it onto the carpet until the fibers are covered by a 1/4" blanket of powder.
4. Allow spot to dry COMPLETELY.
5. Vacuum thoroughly to remove Stain Blotter along with the soil it has absorbed.

For spills:

1. Pour Stain Blotter liberally onto the spill.
2. Agitate gently to absorb spill into powder.
3. Vacuum or sweep up to remove contaminated powder.
4. Re-apply Stain Blotter to cover spill.
5. Allow to dry thoroughly.
6. Vacuum thoroughly to remove Stain Blotter powder along with soil it has absorbed.

The product below is the same product with a different label.

DESCRIPTION:

Pro Poultice is used in conjunction with Pro Solve Gel or Magic for Stone to draw stains out of stone, tile & grout.

DIRECTIONS:

For water-born stains such as coffee, soda, tea, wine, juices etc. You will use Pro Poultice in conjunction with Magic for Stone.

For oil-born stains such as salad dressing, cooking oil, animal fat, etc. you will use Pro Poultice in conjunction with Pro-Solve Gel. Refer to Magic for Stone or Pro-Solve Gel for the procedures.
