Chemspec C-REDXITCS Sapphire Scientific 76-310 RedXit Red Stain Remover (12/1 Quart CASE)

Manufacturer: Chemspec

Chemspec RedXit Red Stain Remover

Buy More \$ave More

Sapphire Scientific RedXit is a one-step spotter effective at removing a variety of synthetic and organic red stains – including sports drinks, fruit juice, red wine and soft drink dyes. Biodegradable solvent and surfactant systems and low aroma make the product easy to work with.

Many other red stain cleaning products come in 2-part systems that require mixing on-site and have a limited shelf life. RedXit is a convenient ready-to-use product that requires no mixing and has an extended shelf life.

- No mixing required. Extended product shelf life.
- VOC compliant in all U.S. states.
- Low aroma formulation means no unpleasant fumes
- No flash point
- Biodegradable solvent and surfactant systems

Sold as Case of twelve 1 qt. (0.9 L) bottles

Re-order no. 76-310
