After a long and thorough process of research and development that entailed trips across the United States, focus groups and rigorous in-field testing.

Series for maximum lift, or parallel for maximum air flow, with the AirFlow+ vacuum system, it's your call!

The AirFlow+ vacuum system allows you to quickly change your vacuum motors from a series configuration to a parallel configuration in under a minute with no mechanical skill needed.

Whether you're extracting flood water and need maximum lift, or cleaning tile and need maximum air flow, the Nautilus has you covered.

Faster drying times. The Nautilus uses a parallel vacuum motor system which delivers a 25% greater solution recovery rate than series vacuum motor systems. You can change to series vacuum yourself
