Model Number: 3400-002

Shurflo 3400-002, Accumulator, 2 Gallon Tank with 1/2in Mip

Manufacturer: Shurflo

Shurflo 2 Gallon (8 Liters) Accumulator Tank 3400-002

Model 3400-002 two gallon stainless steel accumulator tank will operate in any mounting position and comes with a convenient pump mounting bracket. It is also equipped with an adjustable air bladder, stainless mounting feet and 1/2" MPT port.

Product Description

Extend the life of your pump with this highly efficient, corrosion resistant, stainless steel accumulator tank. Minimizes motor heat rise, water hammer, switch operation and pump cycling. Smooth, steady flow and constant water temperatures are achieved with this high quality tank. This accumulator can be used anywhere smooth water flow is desired.

- Easy to install and maintain
- Stainless Steel tank provides maximum corrosion resistance
- Reduces pump cycling
- Consistent water flow, non-fluctuating temperatures
- No taste or odor from bladder
- Pre-charged 20 PSI

Size 12" H 9" D [23cm H, 10 cm D

Features

- 2 gal (8 liter) capacity
- Pre-pressurized to 20 PSI
- 100 PSI (6.9 bar) maximum operating pressure
- Butyl bladder
- Mounting brackets
- NSF approved
- 1/2" NPT Male Port

Can be used with any brand, make or model transfer pump that operates under 100 psi.

Also marketed under part number MP80813855

Shipping wt: 8 #s

shipping dimensions: 12" X 11" X 10"
