Hydrotek ANT1H Hydro Twister 21in Stainless Steel Surface Spinner Wand Converts to Undercarriage

Manufacturer: Hydrotek

ANT1H Stainless Steel Twister Surface Cleaner

Hydro Twisters® are industrial flat-surface cleaners that connect to a pressure washer and use a spray bar rotating at a high speed within 1" of the ground to clean concrete more consistently than an operator with a wand, with less fatigue, 10-20 times faster, and use less water. Hydro Twister surface cleaners can be used with cold water or up to 250°F hot water, on some models, for extra stubborn grease or grime, eliminating the need for soap pretreatment in most applications.

The ANT1H HYDRO TWISTER is small but powerful. With a smaller 21" deck, it is ideal to clean under and around workbenches, bakery racks, and other tight spaces. All stainless, rustproof, construction will keep your surface cleaner working and looking great for years.
Model# ANT1H

The Hydro Twister® Advantage...

- Low Profile Deck: Will fit under benches & machinery
- Low Maintenance: Stainless permanently lubricated & sealed bearings
- Stainless Rotary Arms: for durability and rust resistance
- Less Fatigue: Handle is held in place at ideal working angle
- Rustproof and heavy duty for daily use
- NEW Rear splash guard to keep operator's feet dry

Features + Benefits

- Durable stainless steel construction
- Handle can be positioned for right- or left-handed operation
- Casters for easy maneuverability
- Rear splash guard brush eliminates splash

22mm twist coupler for quick changeovers to gun or accessories
