Please note that because of the high water flow use, we recommend that you consider a truck mounted extractor or portable carpet cleaning machines that are auto fill and auto dump. Then because the machine is hooked to the sink, you need a higher performance machine with at least Dual 3 Stage vacs, Triple 2 stage vacs, quad 2 stage vacs, or dual 6.6 vacuums to run the longer hose runs. Please do not try to operate 14" and 15" wide wands with machines that have 5 stages or less of vacuum.

Note: Because this wand has 6 jets on it, most machines will experience a pressure drop between pump standby pressure and use pressure. Example: Pressure gauge might be set on 450 psi but when you squeeze the trigger on the tool, the use pressure might fall under 225 psi. Suction feed machines will experience a larger pressure drop than pressure feed machines. If you own a suction feed auto fill extractor, you can convert it to pressure feed if you want to improve cleaning results. All makes and brands of portables can be converted from suction feed to pressure feed.

What machines have similar vacuum and water pressure performance?

This is a 28 amp vacuum system with 75 psi high flow water pressure

This is the similar performance as other 26 amp vacuum systems that have 500 psi pumps installed.

Examples are or compare to current or past OEM associations (about 36,550 vacuum units):

Cross American Jaguar 6.6 (discontinued)

Cross American Jaguar 8.4 (discontinued)

Mytee LTD5

Mytee LTD5LX

>

Mytee 1005DX  
Mytee 1005LX  
Nautilus Extreme series  
Mytee 7000LX Flood Extractors  
KleenRite Mega X Flood Extractor  
Clean Storm 12-6500  
Mytee Escape

OR Example of 30 amp vacuum system  
Goliath Quad 2 stage (1st portable to exceed 42,500 vacuum units and out suck a 15 HP gasoline 33 truck mount. [42,500 vacuum units])

OR Example of 50 amp vacuum system  
Goliath Quad 6.6 vacs (73,100 vacuum units)

SteamBrite and Mytee may make changes in products it manufactures and markets at any time; these changes are made without obligation to change, retrofit, or upgrade any product previously sold or manufactured.
