

Model Number: 770619

Malish 770619 Tampico Natural White Fiber - 19in Marble Polishing Floor Machine Brush

Manufacturer: Malish

White Tampico bristles used for light to medium polishing for high luster application of floors. 100% White Tampico is naturally acid resistant. That makes this the ideal choice for use in the marble polishing industry.

• Tampico Brush for light to medium polishing.

• The Universal Clutch Plate (attaches brush block to machine, sold separately, click here) is a NP-9200 durable plastic standard 5 inch center hole size fitting many machines, including Kent, Pullman Holt, Oreck, Advance, Alto, Clarke, Betco, Cassidy, Dart, Eureka, General, Hawk, Hoover, Koblenz, Lawlor, Mastercraft, Mercury, NSS, Nilfisk, Pacific, SSS, Thoromatic, Tornado, United, Viper.

• Tampico is a natural material from the Mexican Agave plant. A soft to medium durable bristle that is highly resistant to chemicals and solvents used for high luster polishing applications. Tampico is perfect for any floor care maintenance program.

• Note: Do not use brush with flammable materials (fuels, solvents, thinner, etc.) as serious bodily harm or injury could result from possible fire or explosion.
