Mosmatic 60.397 Air System Dryer Wall model LU-SB-TW-2in 110V

Manufacturer: Mosmatic Pressure Washing Equip

Mosmatic 60.397 Air System Dryer Wall model LU-SB-TW-2" 110V

The drying system

Mosmatic Dry is the new, profit-generating attraction in self-service car wash systems. It dries vehicles and motorcycles efficiently and leaves any type of vehicle streak free in the summer as well as in the winter. Gentle on paintwork and requires no extra polishing.

2x 7 ampere motors

Two high-performance motors with 7 ampere each ensure that vehicles will be dried quickly and effectively.

Mosmatic special nozzle

This specially shaped air nozzle generates rapid drying speeds and provides a streak-free result.

14' 9" hose connection

This premium grooved hose guarantees ease of handling and reaches everywhere on vehicles thanks to its optimal length.

Easy installation

The universal base delivered with our products offers a comfortable solution for connecting the dryer.

Illuminated housing

Two energy-saving lights provide an extra feature and highlight Mosmatic Dry's best side.

Operating guide for users

A large, waterproof instruction sheet instructs the user on how to operate the dryer to ensure ease of use.

Combination with air-system boom

Combine Mosmatic Dry with an air-system boom to avoid excess hose getting in the way and wearing out prematurely.
