Model Number: SANT1290TBK
OCEANS LEVR TOWL DISP W/TRNSFR MECH

Manufacturer: San Jamar Dispener

Automatic transfer device allows complete usage of stub roll to eliminate waste. Curved mouth presents paper to end user, varied teeth blade reduces free pull. Thicker, longer lasting tires promote smooth dispensing of various paper grades and longer cabinet life. Features: molded drive and idle rollers; toggle catch chassis to allow removal from wall without unfastening screws; Bio-Pruf? treated handle to resist bacterial growth. Holds rolls up to 8" wide: one 8-1/2" diameter and one 4" diameter stub roll. Replaceable finger lock. 13w x 9d x 15-1/2h.
