Fabric Protector 115474

Manufacturer: Chemspec

Chemspec Stainshield Professional 4X 1 Gallon CASE AFSS4G 10091965010873
C-SSP4G
StainShield® Professional

PRODUCT DESCRIPTION

Superior water-based protectant that can be applied to virtually any type of water-cleanable carpet, rug or upholstery. Areas treated will stay looking newer, remain cleaner longer and resist stains. Repels oil- and water-based soils and protects carpet fibers from dry particulate damage. Featuring a low dilution ratio compared to other protectors, StainShield is the easiest and most profitable upsell for a residential cleaning job.

SIZES & OPTIONS

LEGEND REWARDS:

400 points (case)

Effective On All Fabrics Protects Upholstery, Draperies and Clothing From Both Oil and Water-based Stains.

Specially Formulated For Oil and Water Based Soil and Stain Protection

All-Fabric Stainshield is specially formulated by Chemspec to possess the ability to provide maximum fabric protection against both water- and oil- based soils.

Protects All New or Freshly Cleaned Fibers and Fabrics

All-Fabric Stainshield protects virtually all new or freshly cleaned (both wet and dry) fabrics including rayon, rayon acetate, brocades, cotton, velour, silk, suede and pigskin. No need to wait until freshly cleaned fabric has dried before applying.

Labor Saving

An application of Chemspec's All-Fabric Stenciled to upholstery, draperies or clothing makes spot and stain removal quick, easy and effective. Immediately after drying, provides water-based protection and after 8-12 hour curing, provides oil-based stain protection as well.

Leaves Fabric Soft

The exclusive blend of fluorochemical resins and solvents will not cause resoiling, plus it dries completely without changing the hand or feel of the fabric.
