Description
Control Valve offers quality, pressures, and control up to 1,200 PSI. This quick opening industrial flow control valve is made of a forged brass body with all stainless steel internal components. The 30 degree angle eliminates the cost and labor required to attach an additional 30 degree elbow fitting. The 251-30 provides a superior pressure rating as well as the craftsmanship and durability of the standard 251FT-2-2.
