Clean Storm 20170914 Electrical Converter Adapter 230 volt 3 wire 10-30p 30 amp TO 115 volt 4 gang GFCI 8 outlets 5-15R

Manufacturer: Clean Storm

Clean Storm 20170914 Electrical Converter Adapter 230 volt 3 wire 10-30p 30 amp TO 115 volt 4 gang GFCI 8 outlets 5-15R

Description

This converter plugs into the standard 3 prong 230 volt electric dryer outlet, commercial coffee machine plug, or water heater outlet and converts the power to 115 volt outlets that can handle 15 amps per gang or 7.5 amps per receptacle. Four items drawing 15 amps each or eight items pulling 7.5 amps each. This add up to 60 amps of power at 115 volts. This is enough to run 8 commercial dehumidifiers or an electric truckmount like the Enterprise. This converter is included with the purchase of the Enterprise Electric Truckmount start up package. This converter makes it convenient to operate all four power cords on one outlet.

Additional Information

- No circuit breakers on this model. Please do not overload the unit!
- Temporary power distribution box
- Construction spider box

User Agreement

- User assumes all responsibility on use. It is the users responsibility to check the inbound voltage, outbound voltage, and total amp draw to verify these are not going to be overloaded. The user agrees to test the amp draw of any appliance or machine that they plug into these converters to ensure they are not being overloaded. Meters are cheap and mistakes are expensive. You can purchase a meter at <https://www.steam-brite.com/voltage-meter-multitester-p-6259.html>

- User agrees to hold Steam Brite, its employees, and agents harmless in the event of any use of said use of converter.

- The user agrees to not hold SteamBrite and all employee against any problems that arise out of the use of said converters. Remember, just because it plugs in does not mean it is OK to use!
