Model Number: AS34  
 Sonozaire AS34 115A Ozone Generator  
 Manufacturer: Sonozaire

The Sonozaire Odor Neutralizers are industrial ozone generators. They produce ozone from oxygen in the air. Ozone is an activated form of oxygen that oxidizes odorous compounds to odorless compounds. They are used in numerous applications to control odors. All Sonozaire models have an adjustable ozone output level to allow for different treatments, or lower levels for longer treatments or continuous use. These models are not to be used in uninhabited locations, unless used with control methods to limit the ozone level to safe limits. There are many uses for the Sonozaire Odor Neutralizers, and the additional information can help you select the Sonozaire models for some applications. Please contact us for more selections in other cases, to meet your requirements.

Equipment is designed for 115 volt, 50/60 hz, 1 ph (Optional 220-240 volt, 50/60 hz, 1 ph) AC. Sonozaire Odor Neutralizers are industrial ozone generators designed to be utilized in uninhabited areas or in volumes limited by OSHA regulations.

#### Ozone Generator

Converts smoke odors into harmless, odorless CO2 & water vapor. Odors from smoke damaged carpets, etc. are banished forever. Then, the unused ozone simply reverts back to ordinary oxygen, leaving no perfume or unpleasant fragrance behind. Uses no chemicals, perfumes or masking agents. Actually destroys odor molecules, operates unattended, prevents odor from "returning", portable, plugs into standard outlet.
