Cy-View Camera

Manufacturer: Cyclone Ventilation

Steambrite Supply

code # CY-View 100'

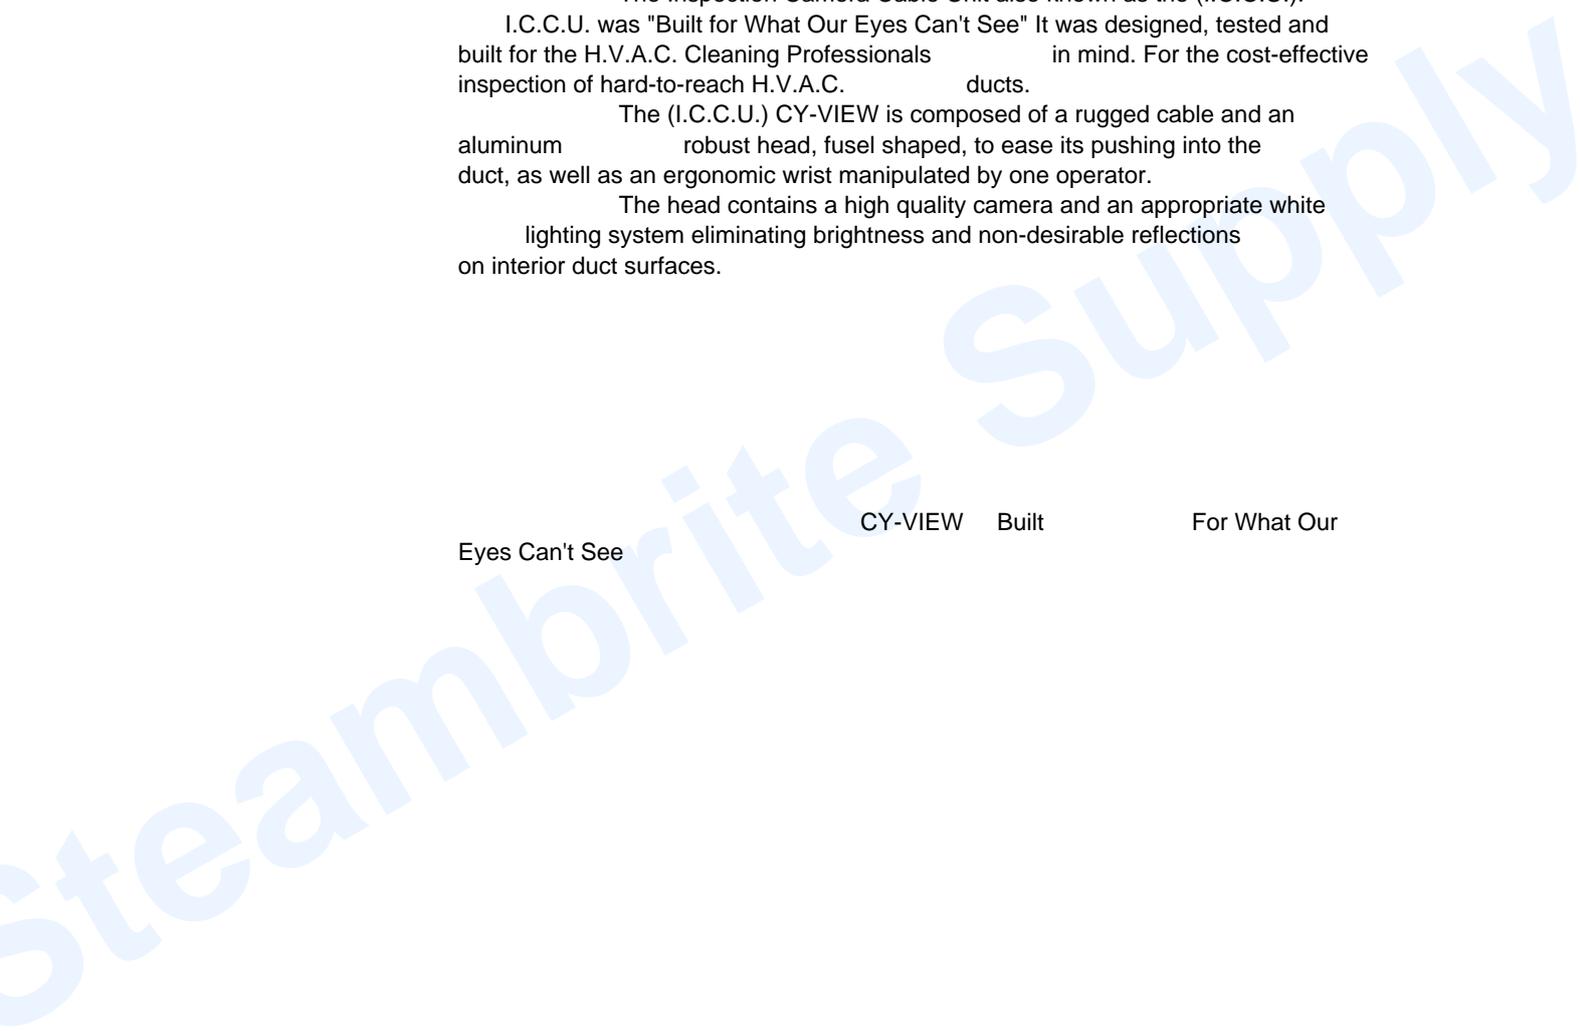

The Inspection Camera Cable Unit also known as the (I.C.C.U.).  
I.C.C.U. was "Built for What Our Eyes Can't See" It was designed, tested and built for the H.V.A.C. Cleaning Professionals in mind. For the cost-effective inspection of hard-to-reach H.V.A.C. ducts.

The (I.C.C.U.) CY-VIEW is composed of a rugged cable and an aluminum robust head, fusel shaped, to ease its pushing into the duct, as well as an ergonomic wrist manipulated by one operator.

The head contains a high quality camera and an appropriate white lighting system eliminating brightness and non-desirable reflections on interior duct surfaces.

Eyes Can't See      CY-VIEW    Built      For What Our

>
