>

Goliath Complete Heat Cleaning Unit - with auto fill and auto dump means no more wasted time filling and emptying your machine. With enough vacuum to run what ever tool and hose distance you need or want. 100% more vacuum and 60% hotter than traditional suction feed auto fill and dump carpet and tile cleaning machines. Quad vacuum motor and optional dry filter bag allows use with air duct cleaning tools. 30 GPM and dual discharge port mean you now have a flood pumper and pressure washer vacuum recovery unit. Note: machine is not going to follow you around the job site, wasting time relocating and resetting up, rather you just add hose to reach where you want. Machine already has 6 ft auto fill hose connected to reach any sink or shower head.

Accessories included:

- 15 ft of 1-1/2" ID vacuum and 3000 psi solution hose with shut off ball valve

Package Advantage:

Hottest electric portable on the market

100% more vacuum to pull out the dirt and get the project dry fast

Systems cleans faster than using power wands

Don't just be a carpet cleaner, be a specialist to remove stains and odors too.

Aggressive cleaning system will restore the dirtiest carpets.

Question and Answers:

Question: If I set the pressure gauge to 500 psi and squeeze the trigger on the Mach-15 five jet 01 carpet cleaning wand, how much pressure will the unit clean at?

Answer: 250 psi. The pump is designed to maintain 500 psi if the flow rate of all the jets is 02 in size. As the jet sizes gets larger the larger the drop during the squeeze or cleaning stroke. The Goliath still drops less than other suction feed machines since this is a pressure feed system. The building pressure helps the pump performance. The idea in this cleaning method is that the carpet is already clean by the prespray and the agitation from the Pro 45 counter rotation agitation machine. The Goliath Complete Heat with the Mach-15 wand is their to rinse the soap out while

>

is floats the dirt out and suck it dry. The 15" rinse path makes for quick work.
