Manufacturer: Chemspec

ODORx Thermo-2000®;

A highly effective odor counteractant.

Thermo-2000 is a powerful water-based odor counteractant formulated for use in thermal foggers. Unlike solvent-based thermal fogging formulations Thermo-2000 contains only food- and cosmetic-grade ingredients. This means significantly reduced levels of volatile organic chemicals (V.O.C.s) for improved operator safety and occupant comfort. Apply with a thermal fogging device only.
