Model Number: 104287000

ProRestore 104287000 Thermo-Gen VF Odor Control Machine Unsmoke Thermogen Thermal Fogger 115981

Manufacturer: Drieaz

ProRestore Thermo-Gen® VF

The ultimate odor control machine.

The Thermo-Gen VF produces extremely fine particles – small enough to allow complete penetration of contaminated surfaces. The fog produced by the Thermo-Gen follows the same path as smoke and odors, reaching into cracks, crevices and voids.

dd dd

Made of durable stainless steel, the Thermo-Gen VF works with solvent- or water-based solutions. The Thermo-Gen can fog up to 14 gallons of solution per hour with a particle size of .25 to 50 microns. Ideal for use with Thermo-55 or Thermo-2000 fogging agents, the unit incorporates a specially designed cut-off system for added safety.

The fuel tank holds 68 ounces, enough for an hour or more of use before refilling. The unit comes complete with spare parts, filtered funnel and fuel pitcher.
