Model Number: H53-8002

Production Metal Forming Yellow Poly Plastic 8002 Jet with O-Ring H53-8002 Nozzle

Manufacturer: Spraying Systems Inc

Production Metal Forming Plastic 8002 Jet with O-Ring

Stamped ESC ER 8002

Includes O ring for water tight back seal

Yellow plastic body and stainless steel nozzle

80 degree wide fan spray

02 means it will spray at about 2 gallons per minute at 4000 psi (naturally less pressure is less volume.)

Used in many types of upholstery cleaning hand tools and farm spraying equipment.

Compare to current or past OEM associations:
