Our PFX series commercial extractors puts a truckmount unit on wheels with high pressure and heated solution in a go anywhere case.

Our PFX1350 extractors have the power to perform and provide the results you expect! All models feature waist-high control switches, a transport handle within easy reach while standing and large stair climbing wheels to take you where ever you need to go. Medium to large cleaning jobs are a snap with the 13 gallon solution and recovery tanks. Get the ultimate in carpet cleaning with a Powr-Flite carpet extractor.

Our PFX1350 is available with the in-line heater for super hot water for those tough jobs. Hot water is the professional's choice when it comes to cleaning carpet. The hot water works with the carpet cleaning chemical to get the dirt out faster.

Free commercial shipping in lower 48 states - home delivery and lift gate service extra.

Perfect Heat!

Innovative new technology from Powr-Flite

Solution temperature increase of over 200°; with out adding amp draw!

Powr-Flite extractors use two very high powered vacuum motors. These motors produce enormous amounts of heat. Perfect Heat technology captures this heat and uses it to heat the water used to clean the carpets. This unique process requires no additional electric power and is very simple and dependable. This process is so unique and so effective that it is being patented.

When used on our basic unit like the PF1350PH, "Perfect Heat" heats the water to cleaning temperature with no electric heater. This provides a hot water extraction machine that runs on one cord at only 15 amps!

The upgrade models PF1352PHP and PF1354PHP combine the Perfect Heat system with a powerful electric heater to produce very hot water that is maintained throughout the cleaning process. No other system can maintain water temperatures as high as Perfect Heat Plus!

Powr-Flite Extractors with Perfect Heat technology provide:

- Higher temperatures maintained throughout the cleaning process!
 - Lower amperage requirements!
 - Simple, dependable operation!
- Dual Heat- Motor box (under the hood heat absorption + 1800 watt electric heater)

>

It's not just Heat...It is
“Perfect Heat”

Don't be misled by competitor's claims of 212° temperatures. All heated extractors can produce high temperatures for a few seconds. How they maintain the temperature in real cleaning situations is what is important when you go to clean carpets.

We conducted laboratory tests of the PF1352PHP and our top two competitors. These competitors both claim temperatures of over 200°. Here are the real results in a realistic cleaning situation. Each machine was run for ten minutes. They were run in 8 second cycles with 4 seconds of spray and 4 seconds of rest. Every three minutes there was a 15 second rest. The temperature was recorded at the tip on the end of a 20' solution hose. These charts show the true temperature maintained after the initial burst of heat.

Commercial Upright Extractor - BLACK MAX - 500psi - 2/3Vacs - Perfect Heat System + 1750 Watt Heater

(Wand not included)

Dual 3-Stage Vacuum Motors Extractor Black Max – the super charged portable extractor with truckmount power! With two 3-stage vacuum motors, Black Max provides the ultimate in portable extraction with 220° of water lift at 101 CFM. The Black Max has a powerful pump that delivers 1.25 GPM at 400 p.s.i. That is enough power to clean even the dirtiest carpets. The Black Max also features the patent pending Perfect Heat system for the hottest water temperature available in the portable market today. Dirt doesn't stand a chance! With the Black Max you get maximum power for super clean carpets that dry fast!

3-stage vacuum motors deliver tremendous recovery power. These motors are 50% stronger than 2-stage motors. These powerful 3-stage motors provide the recovery strength to get the job done.

The Black Max combines the Perfect Heat system with a powerful electric heater to produce very hot water that is maintained throughout the cleaning process. No other system can maintain water temperatures as high as Perfect Heat Plus! More info at www.Perfect-Heat.com.
