Model Number: 20141107

Koblenz Weight plus Installation with brackets for a RM-1715 machine [20141107]

Manufacturer: Koblenz

This package is parts and labor to install a Koblenz weight on top of a Koblenz RM-1715 Floor machine
Problem is without the brackets installed the weight will slide off the top of the plastic apron.

Includes

Koblenz Floor Machine Weight 46 lbs to add to any 1.5 hp machine 4627519

Weight does not need brackets on the TP series metal apron Koblenz floor machines

What we do:

Drill two 1/4" holes through the Koblenz RM-1715 plastic apron

We take two 90 degree store bought "L" brackets from the hardware store and shorten them on each side

We Drill out two 3/16" washers to exactly 1/4" ID

We rivet 1/4" thick rivits through the "L" bracket and back up with the drilled washers

Photo illustrates the work on a used machine.

Price does not include the floor machine.

You must have the floor machine in San Antonio, TX or us perform this work on a new machine at the time you place your purchase.

Benefit of this set up is now your light machine can now do hard surface honing work.

Optional:

Floor Machine 17 Inch 1.5 Hp 175 RPM The Lightest in the Industry Koblenz RM RotoMold Line RM1715
