Model Number: NSP 760008A

NSP 760008A North Safety® 7600 Series Full-Facepiece Respirator Mask Pre-Orders Only

Manufacturer: North Safety Products

Honeywell North NSP 760008A North Safety® 7600 Series Full-Facepiece Respirator Mask

Superior performance, fit, comfort and visibility: get it all with the 7600 Series. ANSI-Compliant, high-impact picture-window lens provides an excellent, 200° wide field of vision. Dual-flange sealing area and five-strap harness provide a secure, comfortable fit to a broader range of face shapes and sizes. Chin and nose cups minimize dead air space and effectively channel out exhaled breath. Speech diaphragm amplifies wearer's voice, facilitating on-the-job communication. Mask easily converts to PAPR or Supplied Air systems, simplifying inventory management and safety training programs. Wide range of cartridges and filters available (sold separately). Latex free.

Includes one mask.
