Model Number: 80162

Pumotec 80162 112T Pump w/M15-8 Motor 12 Volt 200psi (usually Blue color)

Manufacturer: Pumotec

Series 112T Pump w/ M15-8 Motor 12 Volt 200 PSI

12 Volt, 200 PSI (recommended) Spray, '03 Nozzle (not included),
075 Bearing
.67 GPM Spray, 13 AMPS 12 volts Spray, 11 lbs

112v pump and motor used in NINJA, MYTEE, CROSS AMERICAN, ETC. Pumtec
part #80105, Mytee C322

EFFICIENCY

The plunger type design of the 112 is the most efficient way possible to pressurize water. PUMPTEC® efficiency produces up to 20% more pressure or flow for a given power input compared to some competitors' pumps.

MAINTENANCE & SIMPLICITY

Factory lubricated for maintenance free performance. The only tool needed to completely disassemble the pump to its basic components is a simple hex wrench.

DURABILITY

Durability results from exclusive use of premium materials. All metallic wetted parts (except body) are stainless steel or chemically resistant plastic. The plastic pump body is nearly indestructible compared to pumps made of castings. Precision molded plastic body offers chemical compatibility with a wide variety of chemicals.

VERSATILITY

Flow and pressure can be optimized to exactly match power input to nozzle size by customer

>

selection of the precise eccentric offset.
