Model Number: 20151022

Clean Storm 20151022, Dual-Reg Adjustable Pressure Washing Jet, Variable Nozzle, 4-5.5 gpm
Adjust from 0 to 80 degree

Manufacturer: Clean Storm

Clean Storm Adjustable Pressure Washing Jet Nozzle 5.5 Adjust from 0 to 80 degree
as well as push/pull for low and high pressure for soap injection
You can use the lower pressure setting for soap injection.
Please note when this is nozzle is new it will take more force to push/pull the plastic to
toggle between high and low pressure.

Please note that not all variable adjustable nozzles have this push pull action to
toggle between high and low pressure. That is what makes this a "Dual-Reg" nozzle.

Max temp 60c or 140F

Max pressure 3000 psi/ 220 bar

Can be used with water volume up to 5.5 gpm / 21 Lpm

1/4" Fip Lance / Gun Connection

Stainless steel water deflectors.

Also Marketed under Northern Tools 22557, General Pump
