Model Number: NA0816A

Hydroforce NA0816A Injection Sprayer Metering Tips - 1601-1203

Manufacturer: HydroForce

Hydroforce NA0816A: Injection Sprayer Metering Tips - 1601-1203
Description

Hydro-Force Metering Tip Kit: High-Pressure
Now your HydroForce sprayer is more versatile than ever. Dilute concentrated chemical automatically at any of eight standard dilution ratios. Simply insert a new color-coded metering tip to change your dilution.

NOTE: The standard dilution ratio for the High-Pressure HydroForce is 1:8 as it comes from the factory. The Low-Pressure Hydro-Force has a standard dilution ratio of 1:4.
