Chemspec VersaClean 76-620 Power Cap Plus 4/1 Gallons Case Encapsulation Prespray

Manufacturer: Chemspec

Chemspec VersaClean 76-620 Power Cap Plus 4/1 Gallons Case Encapsulation Prespray

Power Encap Plus is a mild acid pH encapsulating cleaner fortified with hydrogen peroxide. It has been specifically developed to remove the spots, spills and stains typically found in the commercial cleaning environment.

Power Encap Plus is non-surfactant based and an ideal product for use with VersaClean's low moisture cleaning programs. Power Encap Plus will not brown and will not leave surfactant residues that contribute to re-soiling and carpet yellowing. Highly effective at removing surface soils, and also tackles beverage stains from coffee, tea and soda.

Exclusive soil encapsulating polymers capture soils then dry to powdery crystals

Hydrogen peroxide brightens and breaks down soils

Releases greasy soils from fibers -- reduces resoiling

Economical 64:1 dilution rate for use with CRB2380 Low-Moisture Cleaning Machine

Mix 50:50 for use as a spotter or prespray
