

Model Number: H132

Mytee H132 Hose Cuff-Lynx Vacuum Hose Coupler 2.5in Male Links X 2.5in Male Pipe Thread Starter

Manufacturer: Mytee Products Inc

Mytee H132 CUFF-Lynx Hose Connectors
Details:
Tired of old-fashioned vinyl vacuum hose cuffs that cause your hoses to lose suction and leak, and are hard to attach in cold weather? You don’t have to put up with it! Connecting vac hoses to extractors and other hoses is easier than ever, thanks to hose connectors. Cuff-Links are a major improvement over vinyl hose cuffs.

They are:

• Durable – Made of durable nylon, their solid construction resists cracking, despite low temperatures.
• Effective – Interlocking 2” female and male connectors are threaded and come complete with o-rings, providing a tighter fit and better seal than traditional cuffs.
• Competitively Priced – Why buy vinyl cuffs when you can purchase Cuff-Links for about the same price?
• User-Friendly – With a positive seal and soft lock, they twist easily into place.

Don’t settle for a bad connection! Get the most from your equipment by ordering Cuff-Links today.
• Your best choice for Truckmount and Portable Vacuum hose management.
•

Specifications:
