Note that both Mytee and SteamBrite reserve the right to change exact specifications without notice. What does this mean? It means that we do not open your boxes and Mytee will change the components that they use to build your machine. We verify the model number and voltage that is stamped on the box. We do not guarantee exact color or shade of your product though usually these ship in the blue family. In early 2018 Mytee is in the process of changing the rear wheels and front casters to a different size and specification. Other changes might also take place. What Mytee does guarantee is that the performance and the product is new and comes with the full manufacturer's warranty with its national service center locations. In other words, this is a 200 psi pump with dual 9 to 10 amp vacuum motors in a dual 12 gallon body style with dual 50 ft 12-3 power cords, but the exact pump model or exact vacuum motor, pressure gauge, or switch that is installed in your machine can be different. In the last year these machine have been built with Electromotor high performance 2 stage vacuum motors as well as 3 stage low amp draw vacuum motors. These are both great vacuum motors. Amp draw is king. What I mean is a 2 stage 10 amp vacuum motor dries the carpet as fast as a 3 stage 10 amp vacuum motor. It does not mater what the vacuum motor is called rather how much electrical energy is converted into vacuum. This currently is a 19.8 amp vacuum system divided by two power cords.
