Foster K6-4025 Full Defense Fungicidal Coating 5 gal. Pail

Manufacturer: Abatement Technologies

Restore and Protect Structures from Mold, Mildew and Bacteria Growth Caused by Water Damage

Foster Disinfectant and Fungicidal Protective Coatings help restore and protect structures from mold, mildew and bacteria growth resulting from flood and natural disasters. Foster products are preferred by contractors and specified by industrial hygienists because of their long term, proven performance and reliability.

Seal and Protect

Foster Full Defense 40-25 Fungicidal Protective Coating

Foster Full Defense 40-25 is an EPA registered coating that kills residual mold and mildew and protects surfaces from mold re-growth. Its high coverage, breathable coating is designed to provide long term fungicidal protection in residential and commercial mold remediation projects. Full Defense is a breathable coating that may be applied to damp building materials, so they are protected during the drying process.

Part #: K6-4025. 5 gal.
