Factory collects sales tax in CA, FL, and TX.

Factory collects \$85 fee if forklift is not on site to remove pressure washer from delivery truck.

Please note this unit requires forklift extensions to remove from the delivery truck even if you have a forklift on site. This means normally you will have to have a 'hold @ dock' option use but this also means that you will have to pay by wire transfer as most credit card companies do not allow for hold at dock options. You will also have to grab the top of the frame and ratchet strap to the top rack of the forklift.
