50.00 lb.

There are two primary ways to store coins in a self-serve environment; either inside the equipment in a coin box or in a vault that is installed beneath the meter to collect coins. Since vaults are cemented in on all sides they are very difficult for thieves to break into. JE Adams provides the " threaded nipple and vault tube cover for most units. This form is designed to help you create a vault system for air machines and can be repeatedly used.

Used with the following models: 8685-2GVR, 8685-2GWVR, 8685-2GVR-1, 8685-2GWVR-1,

8670-2VGA, 8670-2WVGA, 8670-4VA  
Dimensions: 20 x 20 x 24

Also see our vault assembly form which holds \$550 in quarters. (Item #8685-3100A or 8685-3100A-1)

For vacuums use Item #8685-5000A
