Solderless Blue Nylon Butt Wire Connector 610100-2 16-14 Ga

Manufacturer: Steambrite MFG

Solderless Blue Nylon Butt Wire Connector 610100-2

Clear Nylon-insulated Braided Barrel Butt Connectors

Clear nylon-insulated braided barrel butt connectors are terminals that can be crimped anywhere on the body and are used to connect a single wire. The braided barrel construction allows crimping on any side of the barrel without opening the seam. Braided butt splices can be used in vehicle and electrical applications.

Nylon insulation material is molded onto braided seam barrel and is resistant to deformation.

Funnel entry is formed into inside of insulation to allow for easier wire insulation.

Braided seam will not separate under pressure or operating stress.

Clear nylon allows for easy inspection of wire connection.

Industry standard color-coding indicates wire range.

Rated to 600 volts maximum, building wire; 1000 volts maximum, 105°C.

- Product Group: Butt Connectors

Product Type: Clear Nylon-Insulated Braided Barrel Butt Connectors

Insulation Material: Nylon

Termination Type: Crimp

Temperature Range: 230°F

Wire Range: 16-14 Ga

Standards: UL, CSA
