Manufacturer: Powr-Flite

Powr-Flite PF50DC 12 Inch Upright Vacuum w/ Dust Cup Freight Included

## Commercial Vacuum Cleaners

Powr-Flite offers top quality commercial grade vacuum cleaners in a model for your specific requirements.

You won't find a better value on a fully equipped commercial vacuum. This workhorse vac weighs just 14 lbs. and features a 120 CFM 5.0 amp motor, heavy-duty housing, and all steel two-piece handle. Four level height adjustment and easy access to the brush roll make it a favorite among cleaning professionals.

Features:

- Bagless design makes the disposal of dirt and debris simple
- Low maintenance with easy to change belt drive and replaceable, heavy-duty brush roll
- 30' commercial-grade cord is perfect for office or hotel room cleaning
- 12" cleaning path

When you are vacuuming, it helps to have the right tool for the job. With Powr-Flite's extensive line of commercial grade vacuums, it is easy to match the features you need to the job. Our upright vacuums feature heavy-duty low profile housing and wide furniture guards to protect the unit and surroundings during use. Everyone has a preference when it comes to vacuum bags so we made it easy. Most of our models come in either a Vacucide, treated shake out bag model or with the Enviro-Clean, high filtration paper bag. We also offer a heavy duty dirt cup model for fast, simple and clean waste disposal.

When it is necessary to keep the noise level to a minimum, our two tools on board vacuums feature a clean air filtration system that operates powerfully, yet quietly with the Silent Run System. Our commercial vacuum line is completed with two wide area sweeper models and a convenient back pack vacuum. We know your requirements are varied so we offer models in every price range and with a wide range of features so that you can choose the equipment that best fits your specific requirements.

## Commercial Upright Vacuums

Powr-Flite offers top quality commercial upright vacuums that are tough and durable with a variety of models for your specific needs.
