Manufacturer: Husqvarna Equipment

Husqvarna GM3000 Hyperfloor 1 Gal 581921801 581 92 18-02

Husqvarna Floor Treatment Products
Polish your concrete floor to spectacular beauty, strength and abrasion with the Husqvarna Hiperfloor™ method.
Husqvarna Hiperfloor is a step-by-step method for grinding, treating and polishing any concrete floor to a whole new level of beauty, gloss and abrasion resistance.
A Hiperfloor is spectacularly beautiful, extremely hard-wearing, ultra-hygienic and easy to clean and maintain and installed at a surprisingly low cost! In professional environments, the total cost of a Husqvarna Hiperfloor is minimal compared to other types of flooring.
GM 3000 Grouting system is specifically formulated for grouting of holes, air voids and hairline cracks in concrete surfaces. It’s an inherent part of the Hiperfloor process. GM 3000 is effective for patching and filling small air pockets /pin holes when polishing concrete floors.
