Model Number: 106470

NorthStar 106470, High-Pressure Water Pump, 2in. Ports 8120 GPH 94 PSI, Honda GX160 Engine

Manufacturer: NorthStar

[Print Manual:](#)

Overview

Using a dependable Honda GX160 engine, this NorthStar high-pressure water pump is ideal for sprinkler systems, remote area firefighting and washing down equipment. Uses standard NPT threads for attachment flexibility. NorthStar uses long-lasting, high-end silicon carbide seals that are specially suited for heavy-duty applications such as pumping contaminated and abrasive fluids. Fully welded frame with durable DuPont®; Black Wrinkle TGIC Polyester electrostatic finish holds up to jobsite abuse and protects engine and pump.

Features + Benefits

- Designed to push water long distances or to great heights
Silicon carbide seals are 2 times harder, 15% tougher, and 50% stronger than common aluminum oxide seals
- All sheet metal parts are cut using a state of the art CO2 laser
Uses standard NPT threads for attachment flexibility
- Utilizes a check valve to hold a prime while the pump is not running
Replacement parts available from Northern or a Northern retail store
