Clean Storm 25 ft Dryer Vent Cleaning Air Hose System for Agitation and Reverse Blast 20210510

Manufacturer: Clean Storm

img{max-width:100%}
Clean Storm Dryer Vent Cleaning Brush and Reverse Air Blast Hose System

Great control system for using skipper balls and air whips. Works especially well for cleaning dryer vents and flex. Air attachments do not use harsh brushes or rough materials that may damage venting, so you can clean, worry free.

• This new tool for the Scorpion System is used when super aggressive brushing is required.

• Perfect for dried on, baked in hard drier vent lint.

• Works only in round duct 4 to 6".

• Works best with 175 psi and 12 CFM to operate (smaller 6 cfm @ 95 psi air compressors can be used but then you will have to work slower to give time for the compressor to catch up)

• Includes 1/8" Quick Disconnect

• Air blows in reverse.

• Bristles act like helicopter blades and help push debris back towards you.

• When standard whips and blast blower balls will not clean, this is the tool to try.

• Replacement bristles available.

• 1/4 Male Air QD plug for most standard air compressor connections.

Heat Seal Equipment SS18 Scorpion Reverse Blast Spinning Brush 4 to 6 inches

Clean Storm 25 ft Vent Cleaning Air Hose System for Skipper Balls/Air Whips 20181106 Reverse Blast

-Standard, blow gun with momentary squeeze trigger. Provides easy control and quick shutoff as needed.

-1/4 in male air hose QD to allow attachment to standard air hoses. QD is removable to allow adaptation to larger size hoses, if needed. Thread size going into gun 1/4 in Mip.

-25 foot smooth non marking jacket is flexible, lightweight, and rigid enough for easy pushing through vents.

-1/8 in female QD. Works with most standard skipper ball and air whip attachments from Nikro, HeatSeal, and Clean Storm, with no adaptation needed.
This special female QD has a pressure release design makes attachments less likely to be lost inside vents, like with standard QD's.
