

Model Number: 3601G

Mytee 3601G Extractor Descaler System Maintainer Case of 4/1 Gallons

Manufacturer: Mytee Products Inc

Mytee 3601G Extractor Descaler System Maintainer Case of 4/1 Gallons
Video

Description
After purchasing one or more Mytee® extractors, make the most of your sound investment by ordering our System Maintainer. Use Mytee’s System Maintainer regularly for maximum performance and pressure and to prolong the life of your machine
Features

- Keep all tanks and lines free of hard water and chemical build-up
- Improve pump life
- Minimize corrosion and limescale build-up for maximum performance and pressure
- Keep heater(s) running at maximum temperature
- 4 one gallon bottles to a case.

Directions

- Thoroughly mix System Maintainer with warm water at a 1:1 ratio in a separate container. Pour into your Extractor’s solution tank.
- Connect a cleaning tool (upholstery tool, wand, etc.) and remove the jet(s) in order to prevent clogging from dislodged mineral build-up.
- Turn on the Extractor’s pump and run the System Maintainer solution through the system and into a bucket or receptacle until you have a solid stream.
- Let sit for about 5 minutes while the System Maintainer solution does its job inside your Extractor.
- Finish running the rest of the solution through the system.
- Run clean water through the system to flush out any remaining System Maintainer.

Safety Cautions
Keep out of reach of children
Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material safety data sheet. (MSDS).
