Model Number: ReverseL6-15R

Clean Storm ReverseL6-15R Power Joiner Step Up Inverter Converts Dual 15 amp 120 Volt outlets 240 Volt 3 wire

Manufacturer: Clean Storm

Clean Storm ReverseL6-15R Power Joiner Step Up Inverter Converts Dual 15 amp 120 Volt outlets 240 Volt 3 wire

Made with this configuration

Power Cord Adapter Inverter (Reverse Converter) Takes two 115 volt outlets and allows you to use 230 volt appliances that uses under 15 amp @ 240 volts (3600 watts) Single phase current to NEMA L6-15R receptacle. Fast and Easy 220 volts. Commonly used with:  
National Equipment Spartan 220 Scarifier  
Used On:

Power supplies for ther 220 to 240 volt receptacles available including but not limited to: NEMA 6-30R, NEMA 6-50R, NEMA 10-30R, NEMA L14-30R, NEMA L16-30R, NEMA 14-60R, NEMA L6-15R and more...

Perfect for electric cars, pressure washers, welders, plasma cutters, vapor steam cleaners, concrete grinders, industrial vacuum units, mobile simulation lab (RN), coffee grinders, and other high powered equipment when 230-240 volt plugs are just not available.  
Used with the HILTI DD350 Drill, Hilti DD 350-CA 230V BL Core Drill.

Not for use on GFCI or LDCI 115-125 volt Outlets (because it will trip)

To use simply plug into different outlets and push the momentary button to test voltage. If the voltage test light turns on you are good to go. Not all outlet combinations will produce the correct voltage so you have to test before each use. If you push the voltage test button and the green light does not turn on, simply re-located one of the power cords to a different location and retest. Every job site location has the ability to provide plus or minus 230 volts. If you use 15 amp 115 v to 120 volt circuits then you will only be able to operate 15 amp 230 volt equipment. If your pressure washer needs 23 amps @ 230 volts and you are plugged into 20 amp 115 volt outlets, you will need to turn the pressure down to lower the amp draw. Just turn the pressure regulator / unloader knob counter clockwise. The less pressure, the less horse power is needed to turn the electric motor and this will lower the amp draw.

>

Most 230 volt pressure washers draw less than 20 amps @ 230 volts any way so usually you will not have to turn the pressure down.

Until both 120 volt power cords are connected to a 120 volt electrical source, it is electrically isolated from the electrical circuit of the male plug on the 2nd power cord. This protects the user from accidental shock through the male plug contact.

Plastic Box is 6" X 6" X 5"  
Dual 12-3 X 25 ft power cords with dual 20 amp push breakers.  
240 volt Green Test Light with Momentary switch.  
Rubber feet on bottom of box

You must test both wall outlets with a receptacle polarity tester before use!

Electrical Outlet Receptacle Tester 3 wire 120 volt  
20100823

Note: User assumes all responsibility on use. It is the users responsibility to check the inbound voltage, outbound voltage, and total amp draw to verify these are not going to be overloaded. The user agrees to test the amp draw of any appliance or machine that they plug into these converters to ensure they are not being overloaded. Meters are cheap and mistakes are expensive. You can purchase a meter at <https://www.steam-brite.com/voltage-meter-multitester-p-6259.html>  
User agrees to hold Steam Brite, its employees, and agents harmless in the event of any use of said use of converter. The user agrees to not hold SteamBrite and all employee against any problems that arise out of the use of said converters/ inverters. Remember, just because it plugs in does not mean it is OK to use!

Please remember the 80/20 electrical rule. If you are going to plug into a 15 amp outlet and draw long term the device needs to be under 80% of 15 amps = 12 amps max.  
If I plug into dual 20 amp breakers long term then the 80/20 rules math is 20 amps X 80% = 16 amps max.

Testimonial:  
"We have been using ours since 2/22/2017 and still use it today without any problems." Kescor Inc

90 day manufactures warranty or add 2 or 4 more years for a little more.
