Shark Self Contained Mobile Wash System Single Axle 3300lbs load capacity 200gallon Water Tank TRS3500

Manufacturer: Shark

Shark Self Contained Mobile Wash System

Shark offers a variety of self-contained mobile wash units to deliver on-site hot water cleaning

Shark has made customizing a mobile wash system for on-site cleaning as easy as 1-2-3.

- Step 1: Choose from 3 rugged trailers

- The affordable and versatile single-axle TRS-2500 (200-gallon water tank)
- The rugged single-axle TRS-3500 (200-gallon water tank)
- The large volume dual-axle TRS-6000 (330-gallon water tank)

- Step 2: Select from a variety of compatible Shark pressure washers to create the professional cleaning system perfect for your application.

- Step 3: Customize your trailer with a broad selection of options and accessories, such as hydraulic brakes, hose reels, rock guard, etc.

Shark's TRS-3500 is an extra-rugged, top-of-the-line single-axle mobile wash system

Designed for hot-water skids, Shark's TRS-3500 features a rugged, protective chassis design, 200-gallon water tank, leaf-spring suspension rated up to 3,300 pounds, and white-spoke wheels. Designed and pre-drilled for mounting the portable SSG/SSD skid hot-water pressure washer, this heavy duty single-axle trailer perfect for use on busy construction sites.

>

TRS-3500 is ideal for the following applications:

- Construction
- Mines
- Oil fields
- Rental yards
- And more!

PRODUCT OVERVIEW

- Single-axle
- High-density, 200-gallon white polyethylene water tank with 12-inch access port, 1 1/2-inch rain valve, 3/4-inch float valve and a 50-mesh inlet strainer
- Heavy-duty chassis made of extra-durable 2-by-3 inch structural tubing
- Industrial under carriage featuring leaf-spring suspension rated up to 3,300 lbs
- Durable steel cage holds the water tank and chemical jugs in place and features a pressure washer wand holder for quick and ready cleaning accessibility
- Two 3-way ball valves divert water flow from the holding tanks to direct water feed from a faucet
- Trailer tongue assembly includes a swivel jack made to handle 1,500 lb capacity and has a 2 5/16-inch ball coupler for quick and easy hook up of trailer
- Two 5/16-inch chains included for added safety
- Designed and pre-drilled for mounting the portable SSG/SSD skid hot-water pressure washer (accommodates gasoline powered pressure washer only)
- White spoke wheels standard (optional chrome wheels available)
- Many customizable options such as electric or hydraulic brakes, hose reels, chrome wheels and fenders, etc
