Model Number: MMG2030  
Abatement Technologies MMG2030 Gann Compact Moisture Meter  
Manufacturer: Abatement Technologies

Electronic Structural Moisture Meter Takes Measurements Without Invasive Probes or Electrodes  
The Gann Hydromette Compact B Moisture Meter measures structural moisture electronically using a technique based on the dielectric constant/high frequency measuring principle. The pocket-sized Gann moisture meter is equipped with a digital LCD readout and a universally applicable ball sensor for non-destructive detection of moisture concentration in all kinds of building materials

Advanced features of the Gann Hydromette Compact B Moisture Meter include:

- Convenient - Handy, rapid-action moisture indicator provides fast single and series measurements in floors, walls and ceilings
- Dynamic Measuring Range - 0 to 100 digits
- Compact - Fits in your pocket: H 200 mm X W 35 mm X D 35 mm
- Lightweight - Weighs less than .5 pounds
- No Accessories Required - No separate measuring electrodes or cables required
- Automatic - Fully automatic adjustment of the indicator
- Efficient - Power supply by 9 V dry cell or rechargeable battery

Sales tax is collected for GA and TX unless you have a resale certificate on file that you are going to rent out this equipment.
